RETURN INSTRUCTIONS

YOU HAVE 100 DAYS TO RETURN YOUR ITEM!

This returns policy only applies to unused items with the labels intact.

Please note! The return policy applies to the online store only, not physical shops.

If you want to exchange a delivered product to another size, colour or altogether a different product, please return the product and make a new order.

If the product information or images represent the product poorly, please let us know!

In matters related to warranty, always email us first at

orders@scandinavianoutdoor.com

We'll see together how to proceed!

HOW DO I RETURN AN ITEM?

The customer covers the cost of postage when returning items from outside of Finland. The customer may choose the form of delivery themselves (post, courier...).

If you return an item to us in the same packaging in which you received it, please remember to remove any labels with barcodes or to score the barcodes out with, for example, a marker pen. That way the tracking service doesn't read through old codes. Please do not destroy the original packaging (such as a shoe box) by using sticky tape or writing on it etc.

Pack the item well and enclose this form duly completed and keep the return postage receipt containing the tracking code until we receive the parcel.

Post the parcel to the following address:
